God is all around us
Story: God Gives Me Everything

Did You Know?

Statistics show that children who attend preschool enter kindergarten with better pre-reading skills, richer vocabularies, and stronger basic math skills. In addition to these academic skills your child is also strengthening their socialization skills by learning how to compromise, be respectful of others and problem solving. Preschool provides a safe environment in which your child can gain a sense of self, explore, play with peers and build self confidence. You have made an excellent choice to send your child to our preschool!
